

Casa Sierra

\$495K USD

PROPERTY OVERVIEW

This house was one of the original Sayulita vacation houses built years ago by a Guadalaajaran family. It has been completely remodeled to create the perfect vacation villa combining old Mexican charm with modern luxury.

Centrally located less than two blocks from the beach and an easy walk to the center of town, casa Sierra offers the perfect location to easily access all Sayulita has to offer.

Each of the three bedrooms is characteristically unique with tastefully decorated furnishings personally selected from designer shops in Tlaquepaque and Tonola. The upstairs bedroom, which is accessed via exterior stairs, has A/C and a king bed while the downstairs bedrooms, also with A/C units, offer queen beds each with an additional twin size day bed. In addition to the AC, large ceiling fans are placed above each of the beds if a cool breeze is necessary. Two additional days beds are located on the upper covered terrace to offer additional sleeping space.

Casa Sierra offers four spacious and comfortable outdoor lounging areas providing your group with plenty of space to enjoy the sun or the shade. Fresh breezes from the ocean keep the grounds at the perfect temperature. Each of the lower bedrooms has French doors opening up to the shaded terraces. The upper bedroom opens to a large covered terrace area looking down at the pool and the kitchen opens to a tropical outdoor dining and barbeque area.

Saltwater pool. No chemicals! A shallow child pool gently cascades over a small waterfall to the larger swimming pool.
